Greg is a highly regarded executive search professional with a proven track record spanning over two decades. With a wealth of knowledge and deep expertise in the life sciences and healthcare sectors, Greg is a trusted advisor to organizations ranging from global pharmaceutical companies, biotechnology, academic medical centers, medical device and private equity/venture capital backed portfolio companies.

With a passion for executive search and industry expertise, Greg makes sure organizations can confidently navigate the competitive landscape and secure transformative executive talent that drives business growth and innovation.

He has served as a trusted strategic advisor to boards and executive leadership, offering deep industry knowledge and expertise to drive transformative talent acquisition strategies. As a former Market Leader and Partner at Korn Ferry, Greg has significant expertise identifying top-tier talent and delivering high-impact results for clients.

Greg's educational background is in business and healthcare management, including a bachelor's degree from the University of Maryland and an MBA from Temple University. His academic foundation, coupled with his practical experience, positions him as an exceptional resource for organizations seeking to make critical leadership hires.
